

SUJAY SURESH

Kerala, India | +918075822584 | sujaysuresh365@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Highly motivated Artificial Intelligence and Data Science undergraduate with a strong foundation in software engineering, API integration, and machine learning. Proven track record of building and deploying responsive web applications and decentralized solutions. Adept at transforming complex datasets into actionable insights and integrating cutting-edge AI models to solve real-world problems. Seeking a software engineering or AI-focused role at a fast-paced technology organization.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, HTML, CSS, SQL (MySQL)

Frameworks & Libraries: NumPy, Pandas, Power BI, Unity 3D

APIs & Cloud Tools: Gemini API, RESTful APIs, Git, GitHub, Vercel, VS Code, Blockchain

Methodologies & Core Skills: Analytical Problem Solving, Agile Collaboration, Technical Communication, Software Development Life Cycle (SDLC)

TECHNICAL PROJECTS

AI Chatbot

Personal Project | HTML, CSS, JavaScript, Gemini API, Vercel

- Architected and developed a responsive, real-time AI conversational chatbot leveraging the Gemini API to deliver instant, context-aware responses.
- Engineered asynchronous JavaScript workflows to manage API fetch requests, handle JSON payloads, and gracefully resolve latency or connectivity issues.
- Designed a modern, intuitive user interface with CSS variables, optimizing layout rendering speeds and ensuring 100% cross-device responsiveness.
- Deployed and maintained the production-ready application using Vercel, establishing a continuous deployment pipeline from GitHub for seamless feature rollouts.

Insurance Fraud Detection System

Academic Project | Python, Blockchain, Smart Contracts

- Developed a decentralized blockchain architecture to securely record claims data, completely eliminating duplicate entries.
- Programmed self-executing smart contracts and cryptographic data hashing to automate validation rules and flag suspicious claiming behaviors.

PROFESSIONAL EXPERIENCE & TRAINING

VEI Technologies Pvt Ltd – Power BI Data Analyst Intern

30 Days

- Engineered interactive Business Intelligence dashboards and structured robust data modeling methodologies using Power BI to translate complex data into actionable recommendations.
- Transformed highly unstructured, multi-source business datasets into clean, optimized data schemas to support real-time strategic decision-making across cross-functional teams.

EDUCATION

B.Tech in Artificial Intelligence and Data Science – CGPA: 8.1

2022 – 2026

Dhanalakshmi Srinivasan College of Engineering (Anna University)

Class XII (CBSE) – Percentage: 78%

2021 – 2022

Vasavi Vidyalaya

Class X (CBSE) – Percentage: 79%

2019 – 2020

Vasavi Vidyalaya

LANGUAGES

English (Fluent) • **Malayalam** (Native) • **Hindi** (Conversational)
